Goals of the organization for 2024

1. Successfully complete the assessment of the internal quality assurance system (IQAS) by the Slovak Accreditation Agency for Higher Education
2. Increase the volume of research activities and the number of obtained projects with financial coverage.
3. Minimize the risks of the school's dependence on USM students, i.e. increase the diversification of budget income with other educational and research activities.
4. Increase activities to equalize our students with the rest of the academic community and public sectors in terms of possibilities and opportunities for them and for the school.
5. Increase students' motivation for involvement in IQAS processes.
6. Increase cooperation with foreign countries in the field of research and education of foreign students.
7. Increase cooperation in the field of security at the regional level.

In order to achieve the set goals, the organization accepted named tasks with deadlines and responsible persons assigned by the Quality Council of USM.

The control of the fulfillment of tasks and the achievement of goals is carried out by the IQAS representative monthly and the review of the system by the management is carried out annually, on the set dates.
